

Platinum Joins Navy's SeaPort NxG Program, Expanding Support for Defense and Federal Operations

January 01, 2025 (Catonsville, MD) -

Platinum Business Services, LLC (Platinum), a growing small business dedicated to providing the best possible support services to the Federal Government, announced today their inclusion in the Navy's **SeaPort Next Generation (SeaPort NxG)** program. SeaPort NxG serves the Federal Government by acting as a combined resource for Navy SYSCOM, Military Sealift Command, and the United States Marine Corps to procure support services and resources for contract work. In particular, SeaPort NxG allows small and new businesses the opportunity to bid on available work.

"Platinum is excited to be accepted for inclusion in SeaPort NxG," said Jody Venkatesan, Platinum's President & CEO. "This development illustrates the faith placed in us by the Navy due to our record of excellent performance and our ever-growing abilities. Platinum has had a positive working relationship with not only the Navy, but the entire Department of Defense, for many years, and this allows us to continue to provide our services where they are needed most. This award is a major step forward in our company's ability to directly support not only the Government, but the people of our nation. We are proud to be part of SeaPort NxG, and look forward to the opportunities it will bring."

About Platinum Business Services, LLC

Platinum Business Services, LLC is a well-established SBA-certified small business (**HUBZone, Service-Disabled Veteran Owned Small Business (SDVOSB), and Small Disadvantaged Business (SDB)**) located in the State of Maryland.
