

Platinum Awarded GSA's Prestigious OASIS+ Program, Expanding Opportunities to Better Serve Federal Agencies

December 19, 2024 (Catonsville, MD) -

Platinum Business Services, LLC (Platinum), a growing small business dedicated to providing the best possible support services to the Federal Government, announced today their inclusion in the General Services Administration's (GSA) One Acquisition Solution for Integrated Services Plus (OASIS+) program for the **Total Small Business, Service-Disabled Veteran-Owned Small Business, HUBZone, and 8(a)** categories. OASIS+ serves the Federal Government by combining and expanding the previous offerings for services-based contracts, and aids contractors by providing more areas in which to gain contracts. GSA leads and supports the nation by procuring the services and goods needed by the government.

"Platinum is thrilled to announce our inclusion in OASIS+ as a HubZone and Service-Disabled, Veteran-Owned Small Business," said Jody Venkatesan, Platinum's President & CEO. "This reflects not only our stellar record of past performances with the Federal Government, but also the excellent work that we will continue to provide into the future. Platinum has had a positive working relationship with a variety of Defense and Civilian agencies for many years, and this only bolsters our ability to support them at every possible level. This award is a major step forward in our company's ability to directly support not only the Government, but the people of our nation. We are proud to be part of OASIS+, and look forward to the opportunities it will bring."

About Platinum Business Services, LLC

Platinum Business Services, LLC is a mature SBA-certified small business (**HUBZone, Service-Disabled Veteran Owned Small Business (SDVOSB), and Small Disadvantaged Business (SDB)**), located in the State of Maryland. Platinum is a full-service IT Solutions consulting firm whose core competencies feature cybersecurity, information assurance, Agile IT services, financial management, and administrative support services. These include system modernization, cloud services, artificial intelligence (AI), emerging technologies, open-source technologies, machine learning, data analytics, enterprise architecture, business process re-engineering, acquisition support services, and grants management.
