

Platinum Business Services LLC Expands GSA Schedule with Addition of SIN 541620 – Environmental Consulting Services

February 26, 2026 (Catonsville, MD) -

Platinum Business Services LLC (Platinum), a leading provider of innovative technology and business solutions to federal agencies, today announced the successful **addition** of Special Item Number (SIN) **541620 – Environmental Consulting Services** to its GSA Multiple Award Schedule (MAS) contract.

The addition of SIN 541620 strengthens Platinum’s ability to support federal customers with comprehensive environmental consulting capabilities, including environmental planning, compliance support, sustainability initiatives, and program management. This expansion aligns with the company’s continued commitment to delivering mission-focused, high-quality solutions that help agencies meet evolving environmental and regulatory requirements.

“Expanding our GSA Schedule with SIN 541620 reflects Platinum’s strategic focus on supporting government partners with integrated, forward-looking solutions,” said President and CEO Jody Venkatesan. “Our team is well-positioned to deliver environmentally responsible and compliant services that enhance operational efficiency and support long-term mission success.”

With this new SIN, Platinum enhances its portfolio of professional services available to federal, state, and local agencies through streamlined GSA procurement. The company’s environmental consulting offerings complement its existing strengths in cybersecurity, AI/ML, cloud services, data analytics, and enterprise IT modernization.

About Platinum Business Services LLC

Platinum Business Services LLC is a well-established SBA-certified small business **HUBZone, Service-Disabled Veteran Owned Small Business (SDVOSB), and Small Disadvantaged Business (SDB)** located in the State of Maryland. Platinum has also been awarded GSA’s government wide **OASIS+** contract vehicle for 8(a), SDVOSB, HUBZone, and Small Business. Platinum is a comprehensive IT Solutions consulting firm with core competencies in cybersecurity, information assurance, Agile IT services, financial management, and administrative support services. Our offerings include system modernization, cloud services, artificial intelligence (AI), emerging technologies, open-source technologies, machine learning, data analytics, enterprise architecture, business process re-engineering, acquisition support services, and grants management. Platinum’s mission is to be a leading provider of business and technical information services. We strive to ensure that these principles are integrated into our cybersecurity and enterprise performance-based processes and project management services. Our firm’s core values are grounded in delivering quality service with integrity and flexibility to our clients. Platinum’s primary mission is: **“Bringing Business and Technology Processes Together.”**
